Application Guide:

1. Clean your face and keep it dry.
2. Keep your hands dry and remove the patch as shown in the illustration. Avoid touching the microneedles on the adhesive side.
3. Apply the patch smoothly around the eyes. Do not reapply the patch repeatedly. It is recommended to leave it on for more than 90 minutes.
4. After use, remove the eye mask and proceed with your regular eye care routine.
